Information Privacy The personal information requested on this form is being collected by Council for assessment of your application for a consent and report pursuant to Building Regulation 412(2). The personal information will be used solely by Council for this primary purpose or directly related purposes. The applicant understands that the personal information provided is for the assessment of the consent and report application and that he/she may apply to Council for access to and/or amendment of the information. Requests for access and/or correction should be made to Council’s privacy officer.

DESCRIPTION OF PROPOSAL AND REASONS FOR APPLICATION

ASSESSMENT CRITERIA Permeability – Regulation 77

The Minister for Planning (Minister's Guideline MG/12, June 2005) has set out the objective and decision guidelines that Council must have regard to when considering varying a design and siting standard.

If any matter set out in the guideline is not met, then Council must refuse consent.

To assist Council in determining if the objective and decision guidelines have been met, please describe how your application meets the following appropriate assessment criteria.

Objective: To reduce impact of increased stormwater run-off on the drainage system and to facilitate on-site stormwater infiltration.

Decision guidelines

- a. the amount of impermeable surfaces would be consistent with that of existing development on the allotment, if applicable; or *(comment below)*

- b. the capacity of the drainage network servicing the allotment is able to accommodate the additional stormwater that the development will cause; or *(comment below)*

c. on-site stormwater retention is able to accommodate the additional stormwater that the development will cause (*comment below*).
